

# MAGISTERS' TERRACE ALL-ROLES QUICK SHEET

Midnight Season 1 • Patch 12.0.7 • Read in dungeon order

## PRIORITY TRASH CALLS

**TANK:** Mitigate Sunblade Enforcer's Arcane Blade and Devouring Tyrant's Devouring Strike. Face Runed Spellbreakers away.

**HEALER:** Dispel Ethereal Shackles, Holy Fire and Consuming Void. Prepare for Arcane Volley, Ignition and Consuming Shadows.

**DPS:** Kick Arcane Magister—Polymorph; Blazing Pyromancer—Pyroblast; Void Infuser—Terror Wave. Kill healers/casters first.

**ROUTE:** Collect the library's 5% Haste tome. Limit Animated Codices and stagger Wurm/Unstable Voidling deaths.

## 1 ARCANOTRON CUSTOS

**TANK:** Edge puddles. Move off residue. Mitigate Repulsing Slam.

**HEALER:** Dispel Shackles. Top before Arcane Expulsion.

**DPS:** Soak Orbs carefully. Burn during Refueling.

**WIPE:** Never let an Orb reach the boss.

## 2 SERANEL SUNLASH

**TANK:** Keep the Zone accessible. Mitigate an unpurged Ward.

**HEALER:** Spot-heal Marks. Enter the Zone before Silence.

**DPS:** Purge Ward. Clear marks separately. Enter the Zone.

**WIPE:** Outside the Zone = damage and pacify.

## 3 GEMELLUS

**TANK:** Keep copies in cleave. Touch your link. Run from Grasp.

**HEALER:** Watch Cosmic Sting and players caught by Grasp.

**DPS:** Cleave copies. Resolve Link. Use movement for Grasp.

**WIPE:** Do not get pulled into Cosmic Radiation.

## 4 DEGENTRIUS

**TANK:** Face Fragment away. Leave melee before the dispel.

**HEALER:** Dispel after tank moves. Heal Entropy and overlaps.

**DPS:** Cover Essence impacts. Avoid Orbs and Void Torrent.

**WIPE:** Never miss an Essence. Trigger Null Bomb.

# Magisters' Terrace — Tank Playbook

Midnight Season 1 • Patch 12.0.7 • Draft Version 0.9

## Dungeon Overview

### Interrupt first

1. **Terror Wave** — must stop.
2. **Pyroblast** — must stop.
3. **Polymorph** — high priority.
4. **Shadow Bolt / Arcane Bolt** — interrupt when available.

### Kill first

### Lightward Healer

### Blazing Pyromancer

### Void Infuser

### Shadowrift Voidcaller

### Dangerous tank damage

- **Arcane Blade** — purge the Enforcer or use a defensive.
- **Devouring Strike** — major tank hit plus a large healing absorb.
- **Void Gash** — Voidlings add Shadow damage to their melee attacks.
- **Ethereal Shackles** — request a Magic dispel or use a root break.

### Pull warnings

- Do not combine too many **Animated Codices**; their constant Arcane Volley damage stacks.
- Do not combine multiple dangerous casters without an interrupt plan.
- Stagger **Brightscale Wurm** and **Unstable Voidling** deaths.
- Pick up adds immediately when a **Shadowrift Voidcaller** uses Call of the Void.
- Face every **Runed Spellbreaker** away from the group.

### Practical tip

## Arcanotron Custos

### Your Job

- Start near an outside edge.
- Move the boss away from **Arcane Residue**.
- Preserve clean floor space for the orb phase.
- Help soak **Energy Orbs**, but do not take too many stacks.
- Keep the boss away from any orbs that remain unsoaked.

### Avoid

- Do not stand with a puddle behind you before a knockback.
- Move out of **Arcane Residue** immediately.
- Use the room's terrain to control your knockback.

## Defensive

- Use active mitigation or a defensive for **Repulsing Slam**.
- Use another defensive if **Ethereal Shackles** overlaps with group damage.
- Consider a defensive when soaking multiple Energy Orbs.

## Wipe Mechanic

- An Energy Orb reaching the boss damages the group and increases the boss's damage.
- Poor puddle placement can leave the group without safe space.

## Quick Reminder

Edge puddles → defensive for Slam → stop the orbs.

## Seranel Sunlash

### Your Job

- Keep the **Suppression Zone** accessible near the centre.
- Do not drag the boss or zone into an awkward corner.
- Purge **Hastening Ward** immediately when possible.
- Enter the Suppression Zone just before **Vow/Wave of Silence** finishes.
- If marked, clear **Runic Mark** without overlapping another player.

### Avoid

- Give marked players room to clear separately.
- Avoid the arcane impacts created when a mark is removed.
- Do not remain inside the Suppression Zone longer than necessary.

## Defensive

- Use a major defensive if **Hastening Ward** is not purged.
- Use a defensive when clearing **Runic Mark**, especially if you clear second.

## Wipe Mechanic

- Standing outside the Suppression Zone when the silence cast finishes causes heavy damage and an eight-second pacify.
- Clearing two Runic Marks together can stack group damage.

## Quick Reminder

Centre the zone → purge Ward → enter for Silence.

## Gemellus

### Your Job

- Position yourself so the group can cleave multiple copies.
- Remember that every copy shares health.
- At 50%, expect another **Triplicate**.
- If targeted by **Neural Link**, touch the indicated copy.
- Run away from your assigned copy during **Astral Grasp**.

### Avoid

- Drop **Cosmic Sting** puddles away from the fighting area.

- Stay outside the circle around each copy during Astral Grasp.
- Do not let the pull drag you into **Cosmic Radiation**.

### Defensive

- Use a defensive if movement tools are unavailable during Astral Grasp.
- Use a defensive if Cosmic Sting overlaps with another mechanic.

### Wipe Mechanic

- Reaching a copy during Astral Grasp causes extreme damage.
- Failing Neural Link leaves the boss protected and prolongs the encounter.

### Quick Reminder

Cleave copies → touch your linked copy → run from the pull.

## Degentrius

### Your Job

- Face **Hulking Fragment** away from the group.
- After the hit, move away from melee before the healer dispels you.
- Drop the resulting **Stygian Ichor** puddle away from the group.
- Help cover one section of the room for **Unstable Void Essence**.
- Stay on the correct side of each **Void Torrent** beam.
- Continue using mitigation against **Entropy Blast** while away from the boss.

### Avoid

- Never cross a Void Torrent beam; it damages and stuns.
- Avoid Entropy Orbs released when **Devouring Entropy** ends.
- Keep your frontal and dispel puddle away from other players.

### Defensive

- Mitigate **Hulking Fragment**.
- Use a defensive if assigned a long Devouring Entropy.
- Use a defensive if soaking while another damage effect is active.

### Wipe Mechanic

- Missing an Unstable Void Essence impact damages the whole group; repeated misses can wipe the party.
- **Null Bomb** must be triggered before it expires.
- Clipping another player with Hulking Fragment can kill them.

### Quick Reminder

Frontal away → leave melee for dispel → catch the bouncing orb.
