

# ALTAR OF FANGS HEALER QUICK SHEET

Midnight Season 2 • Patch 12.1 • Version 0.5 Pre-Season PTR Draft

## PRIORITY TRASH CALLS

- High Evolutionist — Evolve:** Call the interrupt; failed casts increase pull pressure.
- Ravenous Descendant — attack-speed stacks:** Expect rising tank damage; live cast-name check.
- Caustic Mist Totem — Destroy:** Cover the group during the interaction.

### RAV’I

- DO:** Track Triple Shot → catch meat → prepare for roar.
- WIPE:** Uncaught meat plus a delayed shield break stacks two healing checks.

### ZUL’JAN

- DO:** Track beam soaks and venom timers.
- WIPE:** On Mythic, Ritual Venom stacks and bursts when it expires uncleared.

### THE WRITHING COIL

- DO:** Move first → heal while moving → stop Toxic Atrophy.
- WIPE:** Death Rattle cannot be healed indefinitely.

### HEALER SURVIVAL

- Track Triple Shot and Ritual Venom.
- Plan cooldowns for Death Rattle and Fang Empowered.
- Heal while moving during Vine Grip.

**RUN FLOW:** Opening → Rav’i → Mutation Chambers → The Writhing Coil → Altar Ascent → Zul’jan

HEALER = Healer cues • RED = Wipe Check • Read in dungeon order

# ALTAR OF FANGS — HEALER PLAYBOOK

Midnight Season 2 • Patch 12.1 • Version 0.5 Pre-Season PTR Draft

## Dungeon Overview

**Heal first:** Triple Shot targets; Death Rattle ramp; Ritual Venom carriers.

**Group damage:** Fetid Roar; Synchronized Venom; Fang Empowered.

**Movement warning:** Save movement for Vine Grip and heal while moving.

**Practical tip:** Track Ritual Venom timers, not only player health.

## Opening Trash — Before Rav'i

**Ravenous Descendant — attack-speed stacks:** Expect rising tank damage; exact effect name needs live verification.

**Caustic Mist Totem — Destroy:** Cover the group while a player completes the interaction.

## Rav'i

**Your Job:** Track Triple Shot, stabilise feeding damage and catch meat when safe.

**Heal:** Triple Shot targets, the tank during Scent of Blood and the group before Fetid Roar.

**Avoid:** Regurgitate waves; Triple Shot overlaps; unplanned meat impacts.

**Cooldown:** Use a healing cooldown if feeding lasts too long; personal for a strong Fetid Roar.

**Wipe Mechanic:** Uncaught meat plus a delayed shield break stacks two healing checks.

**Quick Reminder:** Track Triple Shot → catch meat → prepare for roar.

## Relevant Trash — Between Rav'i and The Writhing Coil

**High Evolutionist — Evolve:** Call the interrupt; failed casts increase pull pressure.

**Ritual Chieftain — live verification required:** Prepare for PTR-tuned group damage; confirm final casts.

# HEALER PLAYBOOK — CONTINUED

Altar of Fangs • Full guide continued • Version 0.5 Pre-Season PTR Draft

## The Writhing Coil

**Your Job:** Move immediately with Vine Grip. Heal Death Rattle while moving. Watch fixated players.

**Heal:** Death Rattle ramp, Synchronized Venom and fixated players.

**Avoid:** Burrowing Charge; Venom Jet; Undermining knock-ups.

**Cooldown:** Save movement for Vine Grip; cooldown if the group is slow to uncoil.

**Wipe Mechanic:** Death Rattle cannot be healed indefinitely.

**Quick Reminder:** Move first → heal while moving → stop Toxic Atrophy.

## Relevant Trash — Between The Writhing Coil and Zul'jan

**High Evolutionist — Evolve:** Call missed interrupts and prepare for the resulting damage.

**Altar ascent pack — live verification required:** Final dispels and damage events remain provisional.

## Zul'jan

**Your Job:** Heal beam interceptors, track Ritual Venom and confirm it clears through Bloodletting.

**Heal:** Fang Empowered damage, Boneslicer targets and players deliberately clearing venom.

**Avoid:** Axegrinder; Boneslicer's path; blood pools.

**Cooldown:** Plan healing around beam phases and Fang Empowered; personal while soaking.

**Wipe Mechanic:** On Mythic, Ritual Venom stacks and bursts when it expires uncleared.

**Quick Reminder:** Track beam soaks and venom timers.

## Verification Note

**PRE-SEASON:** Verified: Blizzard PTR notes; Wowhead PTR Dungeon Journal; Warcraft Wiki; MMO-Champion PTR update; experienced PTR testing. Trash casts and route require live verification.
