# ALTAR OF FANGS — TANK PLAYBOOK

Midnight Season 2 • Patch 12.1 • Version 0.5 Pre-Season PTR Draft

## Dungeon Overview

**Interrupt first:** High Evolutionist — Evolve; The Writhing Coil — Toxic Atrophy.

**Dangerous tank damage:** Ravenous Descendant stacks; Hydrastrike; Tail Scythe; Chop Down.

**Pull warning:** Do not combine evolving enemies without an interrupt plan.

**Practical tip:** Save movement for Vine Grip and keep frontals away from allies.

## Opening Trash — Before Rav'i

**Ravenous Descendant — attack-speed stacks:** Control the ramp and plan mitigation; cast name needs live verification.

**Caustic Mist Totem — Destroy:** Keep the interaction accessible and protect the player destroying it.

## Rav'i

**Your Job:** Guide Rav'i to the safest carrion pile. Mitigate Hydrastrike. Break the feeding shield.

**Avoid:** Regurgitate waves; Triple Shot targets; unplanned movement before feeding.

**Defensive:** Use mitigation for Hydrastrike and a defensive for Scent of Blood or a strong Fetid Roar.

**Wipe Mechanic:** Long feeding adds Stuffed stacks and makes Fetid Roar lethal.

**Quick Reminder:** Correct pile → break shield → catch meat → survive roar.

## Relevant Trash — Between Rav'i and The Writhing Coil

**High Evolutionist — Evolve:** Interrupt first; keep the pack grouped for stops.

**Ascendant Serpent — live verification required:** Face away and confirm the final cast list on live.

## The Writhing Coil

**Your Job:** Face away, mitigate Tail Scythe, stop Toxic Atrophy and move immediately with Vine Grip.

**Avoid:** Burrowing Charge; Venom Jet; Undermining; frontals through allies.

**Defensive:** Use mitigation for Tail Scythe; defensive for delayed Death Rattle or Synchronized Venom.

**Wipe Mechanic:** Moving late or not far enough fails the Death Rattle pull.

**Quick Reminder:** Save movement → pull together → stop Toxic Atrophy.

## Relevant Trash — Between The Writhing Coil and Zul'jan

**High Evolutionist — Evolve:** Interrupt immediately if present in the final live pack order.

**Altar ascent pack — live verification required:** Final NPC order, casts and route remain provisional.

## Zul'jan

**Your Job:** Face away, mitigate both Chop Down hits, soak an assigned beam and clear Ritual Venom.

**Avoid:** Axegrinder; Boneslicer's path; blood pools; turning the boss into allies.

**Defensive:** Use strong mitigation for Chop Down and a personal while soaking.

**Wipe Mechanic:** Ignored beams empower Zul'jan; uncleared Ritual Venom bursts lethally.

**Quick Reminder:** Soak beam → clear venom → dodge axes.

## Verification Note

**PRE-SEASON:** Verified: Blizzard PTR notes; Wowhead PTR Dungeon Journal; Warcraft Wiki; MMO-Champion PTR update; experienced PTR testing. Trash casts and route require live verification.
