

DEN OF NALORAKK **HEALER QUICK SHEET**

Midnight Season 2 • Patch 12.1 PTR • PTR Draft 0.9 • 27 July 2026

PRIORITY TRASH CALLS

Keen-Eyed Screecher — Piercing Screech: pre-position for silence.

Spirit of Hunger — Starvation Effigy: kill; max health falls.

The Winter Squall — Harsh Winds: heal while moving.

Grizzled Warbringer — Poison Spear Volley: prepare for misses.

Grizzled Warbringer — Primal Echo: react quickly.

BOSS CUES

1 BOSS

THE HOARDMONGER

Heal the roar → watch mushroom cleaners → limit spore stacks.

Wipe: Multiple spore stacks plus a roar can overwhelm the group.

3 BOSS

NALORAKK

Heal interceptors → cover Fury → stay away from echoes.

Wipe: Repeated failures to protect Zul’jarra create escalating party damage.

2 BOSS

SENTINEL OF WINTER

Pre-heal → move inside → cover the Frost damage.

Wipe: Missing Rimeshatter or entering the storm low can collapse the party.

ROUTE + LIVE CHECK

Foraging → Hoardmonger → Winter → Sentinel → Heart of Rage → Nalorakk.

Red or “live verification” text is provisional PTR guidance.

Mechanics beat uptime.

HEALER SURVIVAL REMINDERS

- Dispel: Mother’s Wrath is confirmed dispellable; current PTR removes all stacks.
- Healing checks: Hoardmonger roars, Frozen Tempest, Primal Echo and Fury of the War God.
- Silence warning: Piercing Screech silences the party for 2 seconds.

Blue = Tank • Green = Healer • Orange = DPS • Red = Wipe / Live Check

DEN OF NALORAKK **HEALER PLAYBOOK**

Midnight Season 2 • Patch 12.1 PTR • PTR Draft 0.9 • 27 July 2026

DUNGEON OVERVIEW

- Dispel: Mother's Wrath is confirmed dispellable; current PTR removes all stacks.
- Healing checks: Hoardmonger roars, Frozen Tempest, Primal Echo and Fury of the War God.
- Silence warning: Piercing Screech silences the party for 2 seconds.
- Mana: avoid healing through Starvation Effigy; the group must kill it.

OPENING TRASH — THE FORAGING

Keen-Eyed Screecher — Piercing Screech: Pre-position before the silence; do not begin a long cast as Screech completes.

Keen-Eyed Screecher — Razor Dive: Track the stacking bleed and stabilise the target.

Spirit of Hunger — Starvation Effigy: Maximum-health reduction stacks while the effigy lives; do not heal through it indefinitely.

Territorial Matriarch — Mother's Wrath: Dispel Mother's Wrath; current PTR behaviour removes all stacks.

THE HOARDMONGER

Your Job: Prepare for Colossal Roar. Track Toxic Spores on mushroom-clearing players. Keep the tank stable while the boss repositions.

Heal: Hearty Bellow adds an initial hit and follow-up group damage. Stabilise one mushroom-clearing player at a time.

Avoid: Both frontals, bone spikes and clearing several mushrooms together.

Cooldown: Use a healing cooldown when a later roar overlaps Toxic Spores or Hearty Bellow.

Wipe Mechanic: Multiple spore stacks plus a roar can overwhelm the group.

Quick reminder: Heal the roar → watch mushroom cleaners → limit spore stacks.

AFTER THE HOARDMONGER — WINTER GAUNTLET

The Winter Squall — Harsh Winds: Heal while moving between shelter; the effect ends when the Squall dies.

Glacial Revenant — Current PTR ability package: Live verification required; keep a cooldown available for first contact.

Frigid Mauler / Terra Rumbler — Current PTR ability package: Live verification required; watch tank damage during first pulls.

DEN OF NALORAKK — CONTINUED

Midnight Season 2 • Patch 12.1 PTR • PTR Draft 0.9 • 27 July 2026

SENTINEL OF WINTER

Your Job: Pre-heal Frozen Tempest while moving into the safe zone. Cover ramping Glacial Torment and Winter's Shroud pressure.

Heal: Stabilise players assigned to Rimeshatter. Keep the party healthy before Frozen Tempest starts.

Avoid: Raging Squalls and becoming isolated before the storm.

Cooldown: Use a healing cooldown during Frozen Tempest.

Wipe Mechanic: Missing Rimeshatter or entering the storm low can collapse the party.

Quick reminder: Pre-heal → move inside → cover the Frost damage.

AFTER SENTINEL OF WINTER — HEART OF RAGE

Grizzled Warbringer — Poison Spear Volley: Prepare for avoidable party damage if players are slow to move.

Grizzled Warbringer — Primal Echo: PTR duration is short but periodic damage is higher; react quickly.

Bonded Beasttamer — Current PTR ability package: Expect a dangerous pack, but verify the release-build cast list.

Loyal Saberfang — Fixate (cast name unconfirmed): Keep the pursued player stable.

Loa Speaker Nanea — Volatile Totem: Prepare for damage if a totem is not removed quickly.

NALORAKK

Your Job: Keep echo interceptors healthy during Fury of the War God. Prepare for Overwhelming Onslaught as a group mechanic. Track the arena before each Echoing Maul.

Heal: Recover the party quickly if an echo reaches Zul'jarra. Current PTR: Fury interceptors no longer receive Spectral Slash from the intercepted echo.

Avoid: Stored Echoing Maul locations and duplicate interceptions.

Cooldown: Use a healing cooldown during Fury; save recovery for a failed interception.

Wipe Mechanic: Repeated failures to protect Zul'jarra create escalating party damage.

Quick reminder: Heal interceptors → cover Fury → stay away from echoes.

VERIFICATION AND SOURCES

LIVE CHECK: Confirm Glacial Revenant, Frigid Mauler, Terra Rumbler, Bonded Beasttamer, Loyal Saberfang and Volatile Totem details before Version 1.0.
