

# DEN OF NALORAKK TANK QUICK SHEET

Midnight Season 2 • Patch 12.1 PTR • PTR Draft 0.9 • 27 July 2026

## PRIORITY TRASH CALLS

**Keen-Eyed Screecher — Piercing Screech:** group and control.

**Spirit of Hunger — Starvation Effigy:** tank beside it.

**The Winter Squall — Harsh Winds:** priority target.

**Grizzled Warbringer — Poison Spear Volley:** keep space clear.

**Grizzled Warbringer — Primal Echo:** mitigate.

## BOSS CUES

### 1 BOSS

#### THE HOARDMONGER

Control the pile → face slams away → keep the arena clear.

**Wipe: Uncleared Rotten Mushrooms burst and apply Toxic Spores to the party.**

### 3 BOSS

#### NALORAKK

Use Zul'jarra's cover → keep echoes outside → protect her.

**Wipe: Echoes reaching Zul'jarra trigger group damage and a stacking damage-taken penalty.**

### 2 BOSS

#### SENTINEL OF WINTER

Centre the boss → preserve Snowdrifts → move inside.

**Wipe: An unsoaked Rimeshatter causes party damage and a root.**

### ROUTE + LIVE CHECK

Foraging → Hoardmonger → Winter → Sentinel → Heart of Rage → Nalorakk.

**Red or "live verification" text is provisional PTR guidance.**

Mechanics beat uptime.

## TANK SURVIVAL REMINDERS

- Pull plan: do not combine unknown PTR packs or difficult patrols until live-tested.
- Positioning: face large enemies away and preserve shelter during the winter gauntlet.
- Tank checks: empowered Hoardmonger, Frozen Tempest, Primal Echo and Overwhelming Onslaught.

Blue = Tank • Green = Healer • Orange = DPS • Red = Wipe / Live Check

# DEN OF NALORAKK TANK PLAYBOOK

Midnight Season 2 • Patch 12.1 PTR • PTR Draft 0.9 • 27 July 2026

## DUNGEON OVERVIEW

- Pull plan: do not combine unknown PTR packs or difficult patrols until live-tested.
- Positioning: face large enemies away and preserve shelter during the winter gauntlet.
- Tank checks: empowered Hoardmonger, Frozen Tempest, Primal Echo and Overwhelming Onslaught.
- Control priority: Piercing Screech, Starvation Effigy and dangerous Heart of Rage packs.

## OPENING TRASH — THE FORAGING

**Keen-Eyed Screecher — Piercing Screech:** Group it tightly; the cast damages and silences the party.

**Keen-Eyed Screecher — Razor Dive:** Watch targeted players; repeated dives apply a stacking bleed.

**Spirit of Hunger — Starvation Effigy:** Keep the pack near the spawned effigy so the group can swap quickly.

**Territorial Matriarch — Mother's Wrath:** Expect rising pressure while stacks remain.

## THE HOARDMONGER

**Your Job:** Control which resource pile the boss reaches at 90%, 60% and 30%. Face Earthshatter Slam and Bonespike Slam away. Move early as mushrooms and spikes reduce space.

**Avoid:** Both frontal slams. Bone spikes and unnecessary Toxic Spores stacks.

**Defensive:** Mitigate Colossal Roar. Use stronger protection when Hearty Bellow is active.

**Wipe Mechanic: Uncleared Rotten Mushrooms burst and apply Toxic Spores to the party.**

**Quick reminder:** Control the pile → face slams away → keep the arena clear.

## AFTER THE HOARDMONGER — WINTER GAUNTLET

**The Winter Squall — Harsh Winds:** Pull deliberately and keep the group near shelter; killing it stops Harsh Winds.

**Glacial Revenant — Current PTR ability package: Live verification required before Version 1.0; avoid combining unknown high-risk casts.**

**Frigid Mauler / Terra Rumbler — Current PTR ability package: Live verification required; face large enemies away until frontals are confirmed.**

# DEN OF NALORAKK — CONTINUED

Midnight Season 2 • Patch 12.1 PTR • PTR Draft 0.9 • 27 July 2026

## SENTINEL OF WINTER

**Your Job:** Keep the boss central so the party can reach the Frozen Tempest safe zone. Group Fractured Shivercores and preserve useful Snowdrifts.

**Avoid:** Raging Squalls and Rimeshatter impact zones assigned to another player.

**Defensive:** Enter the 10-yard inner safe zone and mitigate Frozen Tempest.

**Wipe Mechanic:** An unsoaked Rimeshatter causes party damage and a root.

**Quick reminder:** Centre the boss → preserve Snowdrifts → move inside.

## AFTER SENTINEL OF WINTER — HEART OF RAGE

**Grizzled Warbringer — Poison Spear Volley:** Keep the arena readable; spear impacts land after a short travel time.

**Grizzled Warbringer — Primal Echo:** Use mitigation during the short, intense damage-over-time window.

**Bonded Beasttamer — Current PTR ability package:** Control the Beasttamer and its bonded beast together. Overwhelmed Prey was removed.

**Loyal Saberfang — Fixate (cast name unconfirmed):** The Saberfang may pursue a non-tank player; help control its path.

**Loa Speaker Nanea — Volatile Totem:** Keep Nanea positioned so the group can reach spawned totems.

## NALORAKK

**Your Job:** Stand in Zul'jarra's Defensive Stance coverage for Overwhelming Onslaught. Keep Echoing Maul placements away from the centre. Help assign separate echo-interception lanes during Fury of the War God.

**Avoid:** Stored Echoing Maul locations and unsafe Forceful Slam angles.

**Defensive:** Mitigate Overwhelming Onslaught and Forceful Slam. Use a group defensive for difficult Fury sequences.

**Wipe Mechanic:** Echoes reaching Zul'jarra trigger group damage and a stacking damage-taken penalty.

**Quick reminder:** Use Zul'jarra's cover → keep echoes outside → protect her.

## VERIFICATION AND SOURCES

**LIVE CHECK:** Confirm Glacial Revenant, Frigid Mauler, Terra Rumbler, Bonded Beasttamer, Loyal Saberfang and Volatile Totem details before Version 1.0.
